SUMMARY

Product Manager with **4+ years of experience** building and scaling consumer, B2B SaaS, and GenAI products across growth, monetization, retention, and 0-to-1 product development. Worked on platforms serving **50M+ users and 3L+ DAU**, driving **167% daily revenue growth**, **75% VIP ARPU growth**, and **D7 retention from 12% to 25%**. Currently building 0-to-1 GenAI voice and conversational products, owning discovery, prioritization, MVP delivery, monetization, AI evaluation, RAG, prompts, and guardrails.

CORE EXPERTISE

- **Product Strategy & Discovery:** Product Vision, Discovery, Roadmapping, PRDs, RICE, GTM, Lifecycle, OKRs/KPIs
- **Growth & Monetization:** Experimentation, A/B Testing, Funnels/Cohorts, Retention/LTV, Conversion, ARPU, Pricing, Dynamic Monetization, Loyalty
- **Analytics:** SQL, Product Analytics, Behavioral Segmentation, Lifecycle Analytics, Experiment Analysis, CleverTap, GA4
- **AI Products:** GenAI Product Design, Conversational AI, Voice AI, Prompt Design, AI Evaluation, LLM Guardrails, RAG
- **Technical:** APIs, AI-Assisted Prototyping (Claude, Antigravity, Cursor), Firebase, System Architecture

EXPERIENCE

AIVO Technologies Pvt. Ltd. – *Product Manager*

May 2026 – Present | Gurugram, India

MySmartAssistant — GenAI Voice & Productivity Platform | B2C/B2B

- Took MySmartAssistant from concept to MVP, owning problem discovery, user validation, product vision, PRDs, prioritization, roadmap and GTM; validated 200+ target users, identified voice as the preferred experience based on **3x higher WTP vs. chat**, led an 8-member pod, and shipped the first MVP in **4 weeks**.
- Turned the MVP into a monetizable SaaS product by designing tiered plans and onboarding experiments, driving **+15% D1 activation and first revenue within 3 weeks**; subsequently built autonomous voice workflows across **100+ languages**, achieving ~92% task-resolution accuracy through prompt/RAG optimization and AI guardrails.

GrowthTap — In-house Analytics & Engagement Platform

- Spearheaded a **0-to-1 analytics platform** replacing **\$50K+/year** in third-party tools, enabling funnels, cohorts, segmentation, trends and omnichannel engagement across Android/iOS/Web/flutter.
- Defined SDK and event-tracking architecture with automated session tracking and offline event batching, reducing integration time by **60%**; partnered with Data Engineering on **Kafka + ClickHouse** pipelines.

Lavola.ai — AI Companion Platform

- Shaped product vision, roadmap, PRDs and MVP for an AI companion with **real-time voice calling and multi-persona conversations**, taking the product from ideation to launch with an engineering pod.
- Built the supporting marketing web platform using **AI-assisted development**, translating product requirements into a launch-ready customer experience.

Witzeal Technologies Pvt. Ltd. - *Associate Product Manager*

June 2022 – March 2026 | Gurugram, India

Revenue & Monetization

- Grew Rocket Skill daily revenue **167%**, from **₹3L→₹8L/day across two quarters**, with 30K–40K DAU, through **10+ A/B tests across entry fees, prize structures and user segmentation** to optimize monetization.
- Drove **+10% WoW GMV and +12% purchase conversion** through multiple retention and friction-reduction experiments; expanded VIP active users **45K→65K (+44%)** and VIP ARPU **₹8K→₹14K (+75%)** through dynamic 3-tier loyalty, while reducing bonus expenditure **20%** through incentive ROI optimization.

Retention & Lifecycle

- Improved D7 retention **12%→25%** and D7 active users **22%→48%** through onboarding/friction analysis, personalized engagement and IPL-led events; increased games/user and ATV by **20% each**.

- Owned lifecycle engagement for **50M+ users** using CleverTap across push, in-app, WhatsApp, SMS and email, driving **22% dormant-user reactivation** across 30-day windows.

CRM & AI

- Built **CRM operations from scratch** after validating historical Freshchat reports, resolution-TAT data and user feedback; established OKRs, dashboards, SOPs and a **10+ member team**, reducing TAT from **3–4 days→1–2 hours** and escalations to **<12 hours**.
- Built an **AI Agent Helper** using ticket context and response templates, improving CSAT **2→4.2/5** and reducing FRT to **<2 min**; subsequently launched an **AI chatbot** achieving **40–50% routine ticket deflection**.

Platform, KYC & Compliance

- Re-engineered KYC from **12–24 hours→<1 minute** and **₹4→₹1 per successful KYC** by introducing automated vendor failover, achieving **98%+ uptime**; improved Indian-name matching to **95% accuracy** and reduced manual reviews by **~97%**.
- Delivered a compliance feature in **5 days** by aligning Founders, Legal and Finance under regulatory pressure, enabling a time-sensitive product change without disrupting the customer journey.

Witzeal Technologies Pvt. Ltd. — *Product Intern*

May 2021 – May 2022 | Gurugram, India

- Conducted **2,000+ user interviews**, translating behavioral insights into onboarding and feature-prioritization improvements and earning a PPO.
